Align VSI-8 Rear Mount

Assemble the column mounting bracket to the “U” brackets loosely using the 5/16”-18 x 1 1/2” partially threaded hex bolts, lock washers and flat washers ensuring the longer leg of the “U” brackets are oriented as shown below. Loosely mount the column and plate to the column mounting brackets using the 5/16”-18 x 1 1/4” fully threaded hex bolts, flat washers, and lock nuts as shown. Slide the assemblies into the rear mount frame of the Align bench and position the columns on center according to the module size ordered. Install the modesty panel to ensure correct bay spacing. With this done secure the column mounting bracket and “U” brackets. Then push or rotate the top of the column towards the front of the bench and secure the column hardware.

Document Number: AS70007
