

LISTA GENERAL STORAGE CATALOG

 **LISTA**
making workspace work®

Lista offers a comprehensive array of innovative storage systems and accessories, all of which are described in this catalog. Within the following pages, you'll find:

- Easy-Order offerings of a broad array of Lista products
- A wide selection of accessories that allow you to create your own custom solutions
- Other specialized workspace solutions such as overhead cabinets and computer cabinets
- And much more!

You can use this catalog to order the workspace and storage systems that exactly suit your individual needs.

To help you navigate the catalog, our sections are color coded:

[Full Depth Cabinets](#)

[Shallow Depth Cabinets](#)

[Storage Wall Systems](#)

[Tool Storage](#)

[Unique Workspace Solutions](#)

[Drawer Accessories](#)

Information about ordering custom configured products is indicated in **yellow**, and Easy-Order combinations are indicated in **green**.

For in-depth index, see page 123.

Index 123

At Lista, we provide more than efficient storage space; we also create productive working environments that:

- Are secure, built-to-last solutions
- Offer the greatest possible density, organization and access
- Are ergonomically designed with the user in mind
- Are constructed from the highest quality materials
- Provide a durable, high-quality, attractive powder coat finish

OUR OPENING ATTRACTION

Lista drawers are the centerpiece of our modular building block system because they:

- Provide complete organization of tools, components or instrumentation, right at the point of use
- Feature an advanced drawer suspension system that provides smoother, quieter performance and impressive cycle life (see page 12 for details)
- Maximize use of cubic capacity for improved space utilization
- Are available in a wide variety of sizes and shapes
- Can be subdivided to create custom compartments

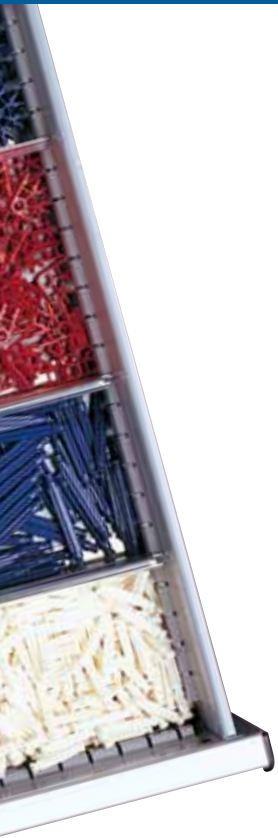

THE ALTERNATIVE TO SHELVING

When you replace shelving with Lista cabinets, you maximize space, enhance inventory control and protect your tools and parts from dust, dirt and shrinkage. When deciding where to invest your business dollars, consider the savings you get from Lista cabinets in:

- Space
- Time
- Money

The installation of Lista cabinets provides for organized storage, maximized density and easy inventory control. This previously disorganized working environment (left) is now clean, professional and aesthetically pleasing (right).

BUILT TO LAST

The result of high-quality, all-steel construction and innovative engineering and design, Lista products are built to provide decades of functionality and ease of use in the most rugged working environments. An investment in a Lista modular workspace system will still be paying dividends years from now with safe, convenient storage and problem-free operation.

Thirty-year-old Lista cabinets stand the test of time. Installed at the General Electric Steam Turbine Division, Lista cabinets were still in use three decades later. The cabinets store a variety of heavy machine tooling equipment, such as turbine casing tools, end mills and cutting tools. GE's program manager of computer aided manufacturing says, "Lista cabinets don't wear out, and there's no real maintenance to speak of."

Design services

Lista's engineering and design team is ready to provide you with a detailed plan for your individual workspace and storage needs, free of charge. We offer solutions that are designed for maximum efficiency and future flexibility, optimizing space and profitability.

- **Floorspace utilization analysis.** We can prepare plan and elevation CAD drawings for a grouping of products, or entire room-sized solutions.
- **Customized surveys and layouts.** Lista experts will survey your current and future storage and workspace needs, and propose solutions that provide the highest density and greatest productivity.
- **Integration with architectural and construction planning.** Rely on our experience with coordinating with architectural and construction professionals at any stage of a project's development.

- **Price quotes.** We are happy to provide free estimates and price quotes for any project, regardless of size.

Custom applications

When you work with Lista, you're certain to get the workspace you need. Together, our engineering and manufacturing teams will work closely with you to analyze your needs and modify our standard products to meet your special requirements.

Unmatched customer support

Lista has knowledgeable, helpful resellers throughout North America. No matter where you are, their guidance, products and support are always close at hand.
